

**Flint in time and space – Time and space in flint.
Characteristics and distribution of siliceous rocks in prehistory
18-19 May 2017, Warsaw, 105, Solidarności Avenue, room 202**

18 May 2017

- 11.00 – **Jerzy Maik** (Director of the Institute of Archaeology and Ethnology Polish Academy of Sciences)
Opening ceremony
- 11:15 – **Katalin T. Biró** (Hungarian National Museum, Department of Archaeology), **Zsolt Kasztovszky** (Nuclear Analysis and Radiography Department, MTA Centre for Energy Research), **András Markó** (Hungarian National Museum, Department of Archaeology)
Recent geochemical studies on Hungarian chipped stone raw materials: results of the OTKA K-100385 project „Provenance study of lithic raw materials of stone tools found in the Carpathian Basin
- 11:45 – **Ryan M. Parish** (Department of Earth Sciences, University of Memphis, Memphis, TN USA), **Dagmara H. Werra** (Institute of Archaeology and Ethnology Polish Academy of Sciences Autonomous Research Laboratory for Prehistoric Flint Mining)
Characterizing chocolate flints using reflectance spectroscopy
- 12:15 – **Iwona Sobkowiak-Tabaka** (Institute of Archaeology and Ethnology Polish Academy of Sciences, Centre for Prehistoric and Medieval Studies in Poznań), **Richard E. Hughes** (Geochemical Research, Laboratory, Portola Valley, U.S.A.), **Dagmara H. Werra** (Institute of Archaeology and Ethnology Polish Academy of Sciences Autonomous Research Laboratory for Prehistoric Flint Mining)
Rediscovering of obsidian artefacts from Racibórz-Ocice
- 12:30 – **Antonín Přichystal** (Ústav geologických věd, Přírodovědecká fakulta, Brno, Czechy)
Chipped tools from Polish siliceous rocks at prehistoric sites of the Czech Republic
- 13:00 – *Coffee break*
- 13:20 – **Klaus Hirsch** (Museum Sønderjylland – Arkæologi Haderslev, Denmark)
Heligoland, an important flint source in the German Bight
- 13:50 – **Paweł Valde-Nowak** (Institute of Archaeology Jagiellonian University), **Mariusz Paszkowski**, **Andrzej Łaptaś** (Institute of Geological Sciences, Polish Academy of Sciences)
North Carpathian siliceous rocks. The case of Bircza flint and Mikuszowice hornstone in prehistory
- 14:10 – **Andrzej Pelisiak** (Institute of Archaeology University of Rzeszów)
The outcrops of Bircza flint. Results of recent archaeogeological research near Kotów (Przemyśl Foothills, Eastern Polish Carpathians)
- 14:25 – **Aliaksandr Vashanau** (Institute of History of the National Academy of Sciences of Belarus)
Review of the flint raw materials from the territory of Belarus
- 14:45 – *Coffee break*
- 15:05 – **Vitali Asheichyk** (Institute of History of the National Academy of Sciences of Belarus), **Aliaksandra Vaitovich** (Belarusian State University), **Aliaksandr Vashanau** (Institute of History of the National Academy of Sciences of Belarus)
Long distance distribution of flint raw material in the Stone Age: Examples from Belarus
- 15:25 – **Zofia Sulgostowska** (Institute of Archaeology and Ethnology Polish Academy of Sciences)
Necessity of interdisciplinary research on Cretaceous flint in Europe
- 15:40 – **Katarzyna Pyżewicz** (Institute of Archaeology Adam Mickiewicz University), **Witold Migal** (State Archaeological Museum in Warsaw), **Maciej Kaczor** (Institute of Archaeology Adam Mickiewicz University), **Witold Gruzdź** (State Archaeological Museum in Warsaw)
An application of lithic reduction methods on Pomeranian Flint – an experimental approach
- 16:00 – **Dominik Kacper Piąza**, **Piotr Papiernik** (Museum of Archaeology and Ethnography in Łódź)
Three stories about exploitation of chocolate flint during the Stone Age in middle Poland
- 16:20 – *Discussion, Refreshment and beverages*

19 May 2017

11:00 - 15:00 Workshops

Organizing committee

dr **Dagmara H. Werra**, dr **Iwona Sobkowiak-Tabaka**
and mgr **Katarzyna Kerneder-Gubała**
(Institute of Archaeology and Ethnology Polish Academy of Sciences)
